

Connaught

CONVERGED SOLUTIONS

Protect Your Premises

Making the invisible visible with Connaught's CCTV Solutions

No-one wants to think about a breach or break in. We know that protecting your people and your premises is a priority. You need a CCTV system that offers the latest technology and high specification cameras, while remaining streamlined and straightforward.

Everything you need from one supplier

Our solutions are designed for businesses just like yours. We take care of everything, from audit to installation and support, so you can focus on your core business. Our CCTV solutions are flexible, meaning you can start small and scale up when you're ready. When you choose Connaught as a security partner, you can add cameras, recorders, and storage options quickly and easily.

Visibility. Any time, anywhere.

Because our CCTV networks are managed through a mobile app, you can review footage remotely at any time. Multiple users can access the app via a mobile, laptop or tablet, so you have total peace of mind.

You can also use analytics with your cameras for improved system performance and safeguarding.

Keeping you protected

High Specification Cameras

Say goodbye to blurry images and broken cameras with our high-definition camera range.

Advanced Technology

Latest CCTV software and IP surveillance technology for consistent coverage and reliable recording.

Streamlined Solutions

Minimal cabling and no moving parts mean easy maintenance, while vast storage saves you from worrying about backing up your system.

Flexible Monitoring

Multi-user access and remote monitoring via mobile app, so you can review footage anytime and anywhere

Tailored Approach

We carry out free site audits to ensure you get the insight you need, where it matters. Plus you can add cameras and features as your business grows

We've been protecting and connecting our customers for over 35 years
